

UPDATE FROM THE SPECIAL MASTER – JULY 20, 2026

Notice for Injury Claimants Regarding Lien Resolution

Many payments to injury claimants must be held because a lien has been asserted by Medicare or a private health insurer. The lien administrator appointed by the Court is working diligently to resolve these liens on your behalf. We appreciate your patience during this process. Once your lien is resolved, your payment will be issued. For more information about liens for Flint settlement claimants, click [HERE](#).

Important: Please do not attempt to contact Medicare or your health insurer directly regarding your lien. Doing so could interfere with the lien administrator's efforts and may delay the resolution of your claim. We understand that waiting for lien resolution can be frustrating. However, lien resolution is a legal requirement that must be addressed in accordance with applicable law before your payment can be released. Thank you for your understanding.
